Before The Next Meeting

Plans:

- Each team member must have begin working on the task assigned to them:
 - Bennett: eating healthy page
 - Sona: exercise page
 - Yuning: quiz page and user management

Task Assignments:

Task Description	Assigned to
Eating Healthy Page -> connect to API and set up pie chart	Bennett
Create exercise page using Youtube API	Sona
Work on user quiz page and store information in user database	Yuning

Minutes from Previous Meeting

- Discussed framework that we would use
 - Ultimately decided on Django because it fit our needs and we were all familiar with Python
 - Discussed tutorials we could all watch because we had all never used Django
- Discussed who would set up HTML skeleton and how it would be set up
 - This was assigned to Bennett because he could get started on it earliest. We decided to have a separate web page for each part of the solution.
